

PERSONAL VEHICLE TRACKING

Your visibility, confidently assured.

When you and your family need our support most.

The Power to Predict

by  track

The Power to Predict, for a safer world.

A lot has changed in the 35 years that we've been keeping the things that matter most to people, safe. We're not waiting to see what's next for our customers, we're inventing it as we speak. At Ctrack, our focus is firmly on the future; using our next generation Telematics and AI for a safer world, at home and at work.

Cover all your vehicles, for work or family.

Gives me
full visibility

Keeps my
family safe

Makes my
life easier

24/7 daily
support

A giant leap from mere tracking and reporting to The Power to Predict.

Real time visibility software | 24/7 Daily support | Vehicle tracking solutions.

Advanced features that help you protect what is important to you.

REAL-TIME VISIBILITY SOFTWARE

Clearly visible, always protected.

For many, a car is one of the most important personal items that you will own. The theft of such an important possession goes beyond the physical loss. There is the emotional value, as well as the cost and inconvenience associated with the delays required for replacement; not to mention the invasion of privacy and the feelings of injustice. In the unfortunate event of theft, a Ctrack tracking device can help to locate and recover your vehicle quickly and assist in the successful apprehension of the criminals. Crime can never be completely avoided, but having a Ctrack vehicle tracking device can lower your insurance premiums for long term savings, dramatically increase the chances of recovering your stolen vehicle and offer peace of mind, too.

TELEMATICS FOR ACCURATE EMERGENCY RESPONSE

Emergency assistance that's always ready.

Telematics plays a crucial role in timely, accurate stolen vehicle responses. When data is constantly being collected from your vehicle, a Ctrack telematics device can instantly detect if something out of the ordinary has occurred, and exactly where it happened. Automatic, Instant, Accurate. Get quick and competent support from a 24/7 national call centre with 35 years of experience in stolen vehicle emergencies.

EFFORTLESS TRACKING

Data that's designed for life.

Sometimes, your personal vehicle doubles-up as your business one, too. A Ctrack tracking service helps track and record personal and work driving separately, for accurate and transparent logging. Effortlessly switch between work and personal modes and let the Ctrack do the rest.

- ✓ **Stolen Vehicle Support** - Assistance provided in searching for a stolen missing vehicle (Additional Cost apply).
- ✓ **Full Track and Trace** -The system records position at predefined intervals, allowing you to view a trail of vehicle movement.
- ✓ **Trip Start Detection** - Records vehicle movement or ignition-on input to determine when a trip starts.
- ✓ **Battery Tamper Alarms** - Alerts you when power is disconnected, or when either the internal or vehicle battery level is low.
- ✓ **Unauthorised Movement** - Notifies you when a vehicle moves while the ignition is switched off – such as when it’s being towed.
- ✓ **GEO Zone Management** - Virtual fences where specific actions can be allowed or disallowed. Receive alarm notifications from a control room if a vehicle enters or exists these predetermined areas.
- ✓ **Business/Private** - Records business/private kilometers travelled.
